Weapons assembly for MINI-14

Order-No.: 120410

The MINI-14, equipped with the appropriate MCPs, can also be mounted on firearms. THE USE OF THE MINI-14 IS ONLY ALLOWED FOR HUNTING ABROAD. It is best mounted behind a red dot sight so that the eye distance to the eyepiece optics is as small as possible.

Equipped with high-resolution MCPs, it can even be mounted in front of a telescopic sight (up to 4×).
