

## aiShell™ mini 5

IP67

MIL 810G

7.9"

255g

Order-No.:  
depending on colour  
and protective film

The aiShell™ cases for iPads from Apple are reliable industrial enclosures, which can of course also be used for private use. They are watertight and impact resistant. Virtually all functions, e.g. Buttons and cameras can also be used from the outside. The only housing system with charging function under water. The iPad is nevertheless to be inserted within seconds and can also be taken again. The ergonomically shaped back makes the case much safer in the hand than other products.

- fits for Apple iPad mini 5
- dimensions 222 × 159 × 22mm
- weight 255g
- waterproof (IP67)
