aiShell 11™

The aiShell™ cases for Apple's iPads are reliable industrial cases that can also be used in the home and outdoors. They are waterproof and shock-proof. Almost all functions such as buttons and cameras can also be used from the outside. As the only housing system, even the charging function is

possible under water. Nevertheless, the iPad can be inserted and removed in seconds. The ergonomically shaped back makes the case much more secure in the hand than other products.
